

# Design and Development of 3D Assets for Istana Heritage Mobile Trail for Community Engagement

Partner Organisation: LDR Pte Ltd & The Istana

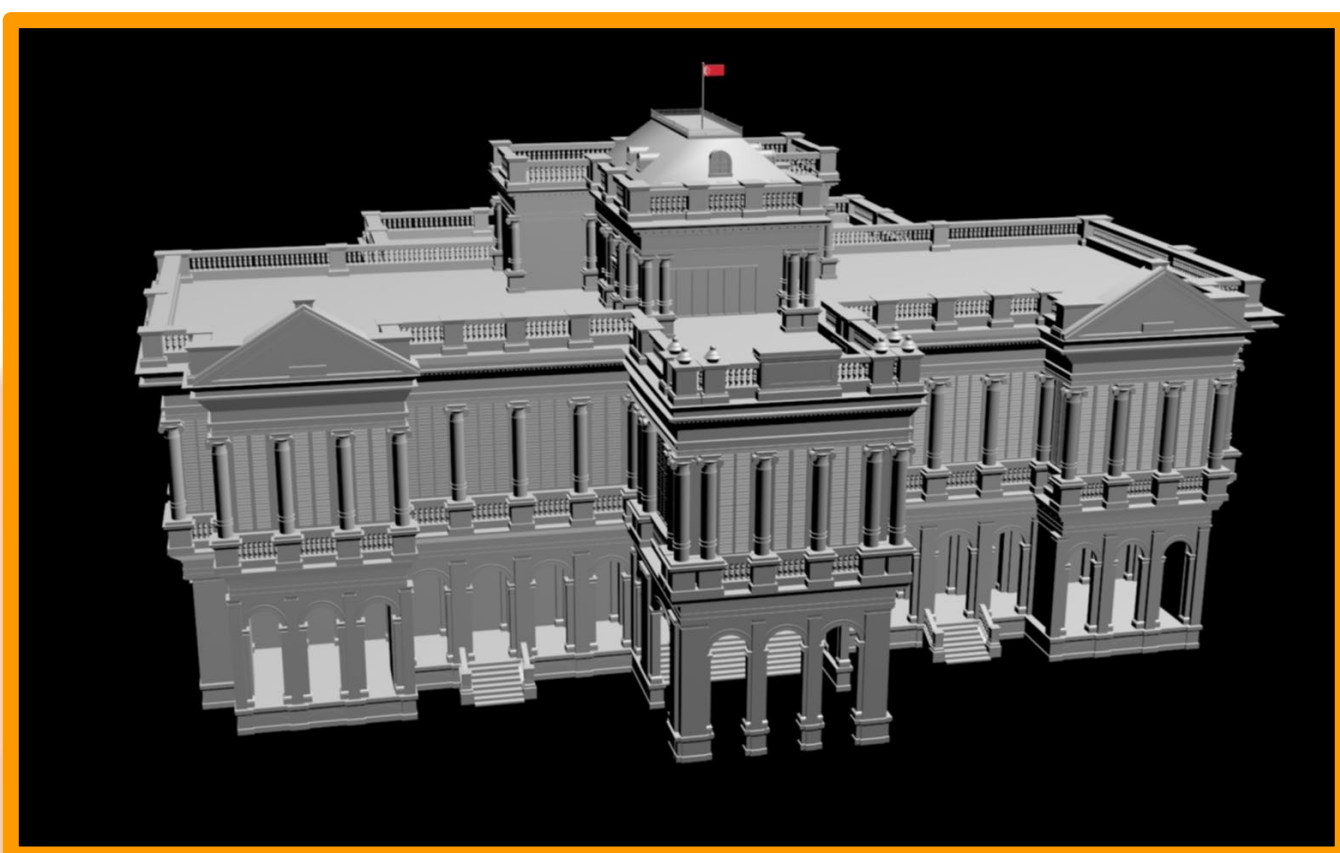

## Project Overview

The project allows visitors of The Istana to better understand the heritage and history of The Istana through LDR's LocoMole mobile app.

The 3D assets, which are showcased via Augmented Reality (AR) from the mobile app, aimed to create an interactive and engaging experience for users on the Istana ground.

### Key technologies:

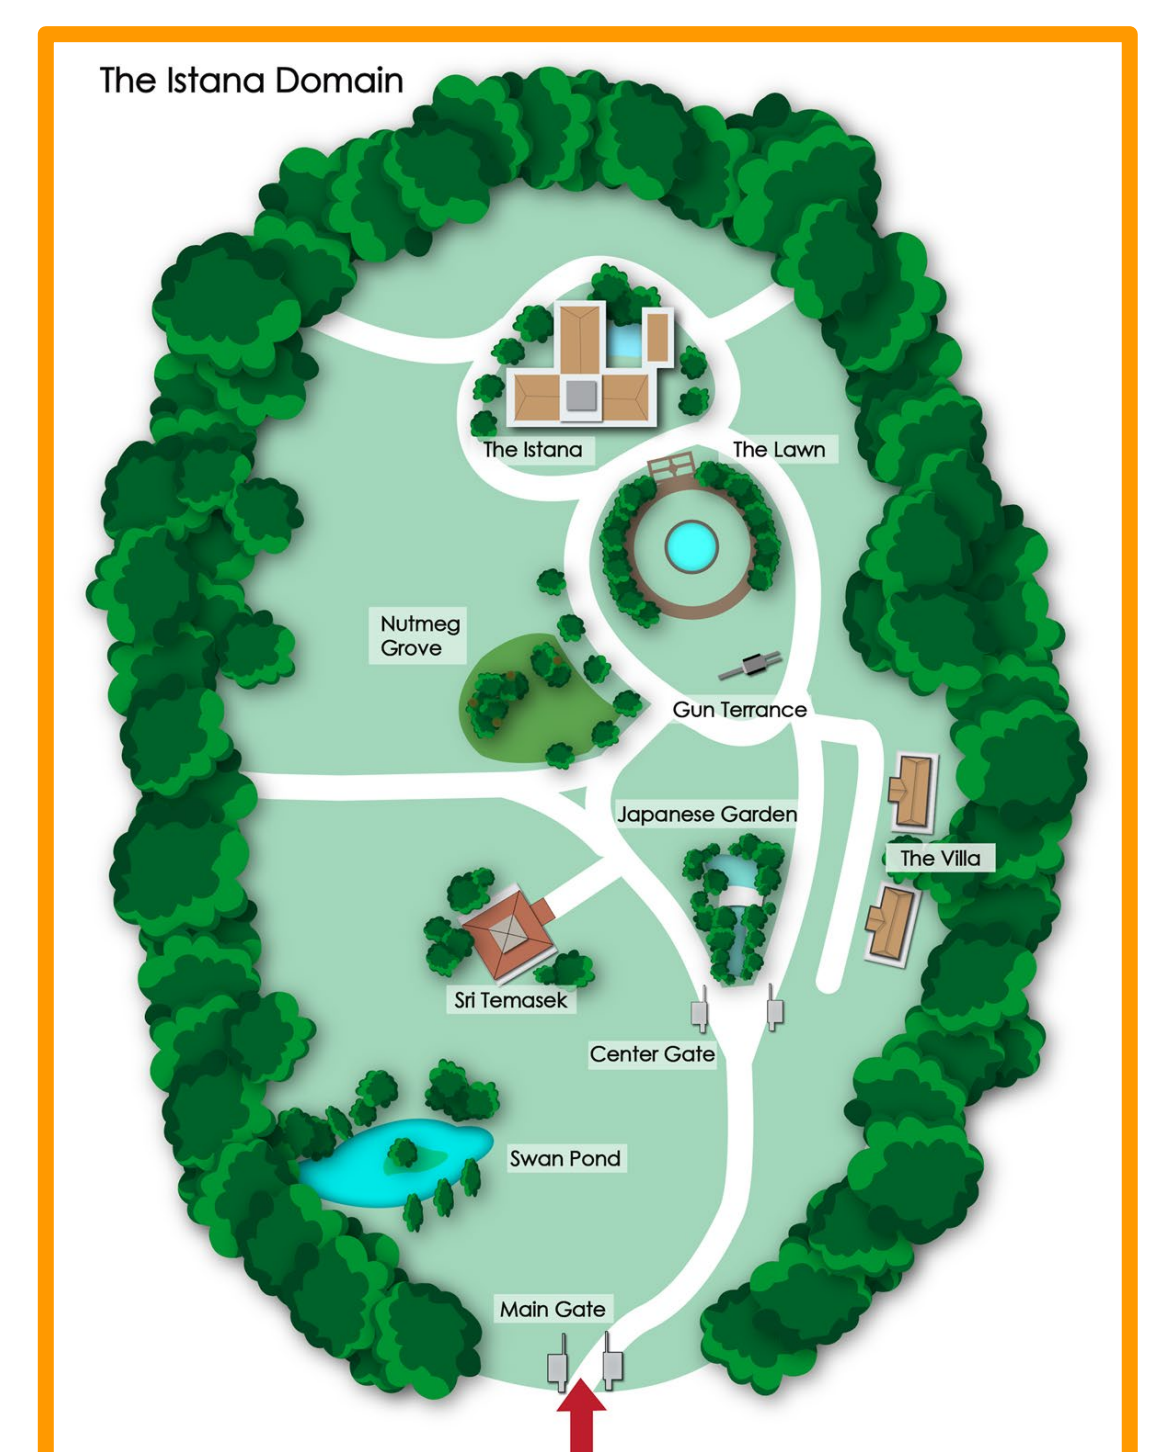

- 3Ds Max
- Adobe Illustrator
- Adobe Photoshop
- Wikitude SDK Viewer
