# Cyber Combat CTF Training Platform

Partner Organisation: IXIA | A Keysight Business

Project Overview

Cyber Combat CTF Training Platform leverages on the Capture The Flag (CTF) concepts with gamified sets of challenges designed to help students and security professionals learn and practice their cybersecurity skills. The platform is also used in outreach for creating cybersecurity awareness.

In collaboration with our industry partner, **IXIA**, the training platform consists of CTF scenarios base on the latest security incidents. These CTF scenarios involve implementation of hacking techniques, such as web-applications, operating system and taking advantage of vulnerability, replicated in an isolated environment.

EasyPwnVm

Robot 100	Where it hides ? 200	CREDENTIALSSSS 300	Dead Fish 300
I'm There For You 300	Thor's secret message 400	Is apple a fruit? 420	Flag is in the source code 420
Time Travel 600	Root.txt 650		

EasyPwnVm Bonus

| Bonus 1 200 | Bonus 2 300 |

Forensics

| Aim Down Sights 100 | Image Obscurity 250 |

Memory Forensic

Image Info 100	Local Ip 150	Computer Name 200	What is Jame password 250
Copy 250	Camouflage 300	Connection 300	Where Is The Place I Trip 300
Hash Of The Backdoor 400	Secret Text 400		

Web

| Source 100 | The Onion Router 100 | Source 2 150 | Famous Blogger 300 |
| Unauthorized Access 300 | | | |

Scoreboard — Top 10 Teams

Place	Team	Score
1	chong	2350
2	Alice	2140
3	admin	1450
4	may	300
